

**Table 1. Vision Statements for Kitselas Reserves**

Community Ideas provided on September 21, 2011 have been reorganized into: 1. Possible tasks; 2. Ideas that need more information; and, 3. Ideas that can be accomplished by individual members or third-parties.

The Kitselas Lands Management Office is committed to encouraging individual small businesses by providing the most suitable location and making the process a smooth, transparent and efficient experience.

The Vision Statements for each reserve were generated from the ideas and conversations with community members on September 21, 2011.

Column 1. Ideas that could be worked into a strategic plan for the Kitselas administration are identified in the “Possible Now?” column. To accomplish each idea, the following is needed: identification of working groups or individuals, costs, funding agencies, timelines, and responsibilities.

Column 2. The ideas under the column “Need More Information” require the following information: how much of a priority is this? Is it realistic? Where would we like the service to go? Can we make partnerships with others to help? The most important is: is it financially possible to do this?

Column 3. The ideas under the column “Individuals” are ideas and activities that individual members can accomplish on Kitselas Reserve Lands.
