The Gitaus Subdivision is currently breaking ground and making way for a new soccer/baseball diamond for the community. This exciting new project in Gitaus will be located near the water tower adjacent to the Gitaus Health and Administration office.

As this is a new project, the field should be ready to use in Spring 2010.

KITSELAS SUMMER STUDENTS

Once again Kitselas has hired summer students to gain experience and earn some extra money by working within various departments of the administration.

AN IN-DEPTH AND INFORMED LOOK INTO THE KITSELAS TREATY PROCESS

The Kitselas Treaty Office has been extremely busy within the last few months preparing for the production of a 22 minute documentary focused on the Kitselas Treaty Process history to present day. Liz Obomsawin of Sekon Productions was the company which was chosen to fulfill the needs of the project.

For almost two weeks, Liz along with the Kitselas Treaty staff worked tirelessly to be sure that every base was covered in terms of footage. Interviews, re-enactments, and a helicopter point of view of the Kitselas Reserves will make this project even more interesting to watch and learn from.

Rather than being similar to dvd's made by other first nations, which focus on convincing the members to vote yes on a treaty, the approach for Kitselas was to inform the members of why a treaty is needed.

With our modern day politics and seemingly endless negotiations, the real reason why a treaty is necessary is to solidify the uniqueness which our people have so painstakingly tried to preserve. The dvd will give historic facts, show the economic and developing initiatives of Kitselas and will also give information which may not be known by all members.
